EDUCATION

NORTH-WEST UNIVERSITY

Bachelor Of Science in Information Technology
2025-In Progress

CAPRICORN TVET COLLEGE

Information Technology & Computer Science (NQF4)
2021 - 2023

PHALAKGORO-MOTHOA SEC

2015 - 2019

SHORT COURSES

- Cisco
- Microsoft AI Fluency
- IYF Project Management
- Google Project Management
- Introduction To Digital Entrepreneurship

SKILLS

- Automation and wireless devices
- Leadership
- Adaptability
- Critical Thinking
- Programming (C++, C#, Python, VB, Html, Css, Js)
- Computer Network Configuration
- Project management skills to oversee system implementations.
- Computer & Network Troubleshooting

LANGUAGE

English
Sepedi

ABOUT ME

I am an ITC graduate with a background in Information Technology, having studied IT in college. I specialize in evaluating existing technology systems, identifying shortcomings, and devising solutions to enhance operational efficiency. I collaborate with teams to understand user-needs, designing effective solution & implementing new technologies. My education in IT provided a strong foundation in programming, database management, & systems architecture which I leverage to create efficient, scalable solution for client. I'm passionate about continuous learning & staying up to date with the latest technology trends.

EXPERIENCE

IoT Developer Trainee
Greycode (pty)Ltd
01/09/2024 – 30/11/2024

- Working with the wider development team.
- Designing, developing & implementing IoT solution.
- Gaining of both hardware & software development skills.
- Programming IoT solutions using programming languages like C++.
- Building & Intergrating connected devices that communicate over the internet..
- Working with embedded systems, sensors, actuators & communication protocols.
- Programming tasks where I programmed microcontroller, working with cloud platforms for data management & understanding IoT architecture.
- Utilizing tools & Technologies such as programming languages(C++), wireless communication protocol (MQTT, Bluetooth, Zigbee) & cloud service.

Work-Based Program
Capricorn Tvet College
01/08/2023 – 30/08/2023

- Assisted the head technician in troubleshooting and resolving computer, software, and network issues. Gained hands-on experience in maintaining IT systems, diagnosing technical problems, and providing practical solutions in an educational environment while developing strong problem-solving, technical support, and teamwork skills.
